- Med Dialogue Fellows
- Activism Days
- Majalat & EUDELs Support

This Programme is funded by the European Union

# Vision Med 2030

A regional public consultation involving CSOs and Networks in the region, aiming at producing a vision on the Mediterranean region as a common space, a sort of manifesto on the Mediterranean we want for the years to come.

The consultation will include regional debates, first involving CSOs from all Southern Neighbourhood countries, then from the North as well.

Synergies will be developed with the Union for the Mediterranean, the European Union and other intergovernmental institutions or initiatives to debate the outputs of the consultation.

This Programme is funded by the European Union

# Resources & Capacity Building

Good practices, lessons learnt from different activism communities and civil society practitioners will be gathered in an E-Library delivering know-how and advice to CSOs on advocacy, campaigning, mobilization and media strategies, or institutional dialogue.

Thematic capacity building seminars will be carried out on an annual basis. Participants will be identified to possibly reach young practitioners and small organizations from disadvantaged classes or rural areas.

Regional advocacy campaigns will be coached as pilot actions addressing different thematic issues. Advocacy campaigns shall have a regional scope and shall engage campaign initiators in institutional dialogue as well as in influencing policy-makers.

This Programme is funded by the European Union

# Med Dialogue Fellows

Fellowship grants will be offered to selected young leaders and activists with the aim to encourage sustainable action in an innovative way; as pilot actions, they will

- Participate in thematic bootcamps;
- Conceive and realize common actions.

Beneficiaries will be empowered also through a mobility fund, allowing them to join other Programme activities like the regional capacity building seminars or the Activism festival , or other regional conferences.

This Programme is funded by the European Union

# Activism Days

A cultural a political gathering on active citizenship in the Mediterranean space, involving public debates, performances, literary readings, etc., where regional issues of common concern are addressed from a social and political perspective, and explored with culture and arts.

The Activism festival will represent a kind of final “open stage” delivering dialogue and debate, displaying the Programme’s outputs and presenting the work of the partners; cooperation will be sought as well with entities like EED or the ALF.

It will contribute to give civil society a voice in the public debate, to empower visionary imagination, as well as to enhance their visibility.

We wish to organize Activism Days in a city on the Mediterranean Sea.

This Programme is funded by the European Union

## Majalat & EUDELs Support

A specific “on demand” cluster is foreseen with the aim to respond to needs and expertise requests which will materialize during the Programme and following a consultation carried out in May 2019.

Specific exchange mechanisms will be followed with respect to the two main stakeholders, in coordination with DG Near.

Activities might include joining training and capacity building activities; thematic expertise support; joint communication activities; or institutional dialogue facilitation (2020-2021).

Regional seminar: “Youth in decision-making processes”.
