

Implementation, in the Programme area, of the EUSAIR flagship and crosspillar project idea Adriatic Ionian Cycle Route for Sustainable tourism

DESCRIPTION

The CYROS project aims to enhance sea-mobility and sustainable transport across the Adriatic coast by developing a cycling route network.

It integrates multimodal transport options like bike&train, bike&bus, and bike&boat, promoting sustainable tourism and local mobility.

The project fosters cross-border cooperation, improves transport services, and supports the EUSAIR action plan through the ADRIONCYCLETOUR initiative.

PROJECT DURATION
03/2024 - 08/2026

ERDF
2.200.000,00 €

TOTAL BUDGET
2.750.000,00 €
